- **No overtime after 20:00 will be allowed.**
- The above-mentioned booth size limits refer to each individual exhibition booth and not to a stand building company setting up more than one booth, summarizing the sqm of these booths.

2) Obligatory general rules for set-up and dismantling:

- All companies - also self-unloaders - must contact the official freight forwarder IML in advance and as soon as possible to book their time slots - for details please refer to the IML information pages.
- Trucks must leave the offloading position immediately after unloading. Trucks cannot stay at the premises for a longer period or overnight, **there is no parking space at ACV.**
- The use of own forklifts outside and inside the exhibition halls is forbidden due to security reasons. You can order forklift service with IML.

3) TRUCKS > 7.5 tons on weekends - special permission required

By law all trucks (also noise-reduced ones) with a total weight over 7.5 tons are not allowed to drive in Austria from Saturday 15:00 hrs to Sunday 22:00 hrs.

In case needed, you must apply soonest possible, but not later than 2 weeks before set-up, for a special permission from the Austrian authorities to drive through Austria and within Vienna.

As truck parking on the ACV premises is strictly forbidden, trucks must park on outside parking spaces and have to use public roads to arrive again at the venue - **so you MUST IN ANY CASE obtain such a special permission for a truck over 7.5 tons.**

Please note that the special permit to drive during the restricted period can only be requested by the transport company, not by the exhibitor.
